compliPOINT PPE Tracker

- Track equipment assigned to employees
- Track PPE assigned to employees
- Set reminders for expirations for PPE
- Show dates and times in the activity calendar

No more forgetting what and when equipment was assigned to an employee thanks to the email reminders and the ability to place the event on your activity calendar. This feature prevents dates from slipping through the cracks. The types of equipment and PPE you want to track are easy using your customizable pick list.

The screenshot displays the compliPOINT PPE Tracker interface. On the left is a navigation menu with categories like Calendar, Training Center, Assessment Center, Injury/Illness Center, Locations, Employees, Help, and Administration. The main area is titled 'PPE Date Tracker Search Grid' and includes a 'Send To Excel' button and search fields for Location, First Name, and Last Name. Below the search grid is a table with columns for View, Records, Location, First Name, and Last Name, showing entries for 'San Diego- Corporate Headquarters' (Gavin ADAMS) and 'New York- East Coast Shop' (Nolan ALEXANDER). An 'Update PPE Tracker Record' form is overlaid on the right, showing details for 'NOLAN ALEXANDER' with a 'Full Face Respirator' type, a start date of 10/1/2008, and a through date of 1/2/2009. The form also includes a 'Notes' field with 'Inspection time' and an 'Email Reminder' section with a checked 'Send email Reminder' option, a 'To' field with 'bob@genco.com', and a 'Send' field set to '5 Day(s) Before Through date'. Buttons for 'Update PPE Tracker Record' and 'Cancel' are at the bottom.
